## York Seal

### Description

York Seal Flashing is a 40 mil thick membrane consisting of a self-adhering rubberized asphalt laminated to a high density cross laminated polyethylene film. A siliconized release liner prevents the product from sticking to itself in the roll.

### Description & Benefits:

- Waterproof Barrier at flashing areas to prevent wall assembly leaks
- Self-adhesive nature allows for easy installation on concrete, masonry, gypsum, steel and wood substrates.

### Uses:

- Through-Wall Flashing
- Curtain Wall Perimeter Flashing
- Jamb Closer Flashing
- Roof to Parapet Flashing
- Repair Tape for flashing, air barriers, etc.
- Transition Membrane (air barriers, roofing, waterproofing)
- Window and Door Tape
- Window and Door Pan

### ACCESSORIES:

- UniverSeal sealant US-100
- SS Termination Bar
- T-96 Termination Bar
- Stainless Steel Inside Corners
- Stainless Steel Outside Corners
- Stainless Steel End Dams
- Stainless Steel Drip Edge
- Weep Armor™
