

Weep-Armor™

Protects weep vents from clogging with mortar and debris

Key Properties

- Keeps weep vents clear of:
 - Mortar droppings
 - Dirt, silt, fines
 - Construction debris
- Promotes air flow
- Acts as an insect barrier
- Compatible with all cavity wall components
- 93% recycled material
- Life of the wall performance
- Convenient 40' roll lengths

Description

Weep-Armor™ is made of polyester strands for life of the wall performance of keeping the weep vents protected. The purpose of the product is to keep mortar droppings, dirt and debris from clogging the weep vents, while providing a path for water to reach the weep vents. **Weep-Armor™** eliminates the worry of mortar bridging, insect infestation through the weeps and it promotes air flow in the cavity wall.
